### A HAPPY MOTHER COMMENTS...

“What an incredible journey. We couldn’t have done it without your help. The thought and effort you put into preparing the list of schools gave us a sense that we were headed in the right direction.

There are too many choices and too little time for us to know each school’s strengths and possibilities. It was great to have you match the twins’ interests and criteria with places that they’re likely to succeed.

Their lists included schools we hadn’t heard of, but as it ends up those are some of the schools that are among their top choices. It was your first hand knowledge of the schools, and experience with admissions staff that gave us confidence in your recommendations.” —JV • Ithaca, NY
